## Istruzione

**Politecnico di Milano ~ 2017-in course**

*Bachelor's degree, Electronic Engineering.*

**Liceo Classico "Ivo Olivetti", Locri (RC) ~ 2012-2017**

*Secondary School Diploma, Classical studies, 100/100.*

I took part at Mathematical Olympiad winning regional stage, for 5 years straight, as individual and as team.

At the national stage played in Cesenatico in 2016 I won the Honorable Mention.

## Experience

**IoniCup, Locri (RC) ~ 2012-in course**

*Web Developer, Staff Member.*

IoniCup is a basketball tournament for young kids placed in Locri (Calabria). Year after year this tournament is getting bigger. Now we host teams from all Italy (like Olimpia Milano), and Europe.

During the tournament I deal with drawing up game schedule using excel, design some gadgets with Photoshop CC and other minor stuff. I'm currently designing a website ([www.ionicup.it](http://www.ionicup.it)) in Python and Django that should automate how team enroll their players for every match and create game report pdf. Audience will be able to connect to the site to watch real time results and time.

**DaBoss Tournament, Locri (RC) ~ 2018-in course**

*Web Developer, Social Manager, Staff Member.*

DaBoss is a 3vs3 streetball tournament. It's played on the waterfront in Locri (Calabria). Here I draw up game schedule and design gadgets. I take care of our webpage ([www.dabosstournament.com](http://www.dabosstournament.com)) and social pages (Facebook and Instagram). Furthermore I deal to publicize the event through targeted ads online and in real world.

**Etnye, Milano (MI) ~ 2019-in course**

*IT Consultant.*
